

The Patroller - Video Alarm

Construction Site & Vacant Property Security System

The Benefits of The Patroller

	Traditional Security.		The Patroller - Video Alarm
X	Expensive. Many security companies charge a minimum of £8 per hour.	✓	Our systems start from less than £1 per hour.
X	Unreliable. How many stories have you heard about guards falling asleep on the job?	✓	The Patroller is controlled by you and therefore always switches on at the right time. Once on, it stays on and never falls asleep!
X	Look the other way! There have been cases in the past where guards have been asked to look the other way. For a small fee of course!	✓	The NSI Gold Monitoring Centre does not have connection or interest in the site and therefore cannot be bribed.
X	Can be attacked! The last thing any company wants on their conscience is that a guard has been injured while trying to protect the building.	✓	A CCTV system is just cameras and some sensors. If they get attacked and damaged, they can be replaced quickly and easily.
X	Inefficient. Many intruders may not be deterred by somebody sat in a cabin.	✓	90% of intruders are frightened off by a warning announcement, the attendance of our Response Team & the Police.
X	What did you see? How difficult is it to give a description of someone an hour after the incident?	✓	With our Systems, all images can be recorded 24/7 and can be offered as evidence to the Police.
X	Over stretched . During periods of sickness, holidays and busy periods, it may not always be possible to get a guard straight away.	✓	7 Protect has the largest stock of equipment ready for immediate installation anywhere in the country. The equipment can be up and running within an hour.
X	Variable Prices . Many charges for guarding vary dependant on the time of year i.e. Christmas or New Year.	✓	Our simple pricing scheme means you pay a fixed weekly hire charge throughout the duration of the hire period.
X	Site familiarity . Obviously a guard needs to be shown round the site, which takes up valuable time.	✓	Tell us what you want protecting and we'll protect it!
